

Decora Smart® 15A Switch (2nd Gen)

APPLICATION

Decora Smart Wi-Fi® 2nd Generation devices connect to a Wi-Fi network to provide a easy Wi-Fi lighting control for the whole home. Leviton's Wi-Fi 2nd Generation 15A switch is an affordable solution that makes it easier than ever to add smart lighting control to any room or home. Use your voice with Hey Google, Amazon Alexa™ or Apple Siri® to control connected lighting. Use the My Leviton app on a smartphone, tablet or computer to control lighting or adjust schedules when away from home or anywhere you have access to the internet. Control a wide array of bulb and fixture types with best-in-class lighting control performance and custom settings.

The Wi-Fi 2nd Gen Switch features wire leads, reduced product depth, and a streamlined app setup flow for easier installation. The switch features a rocker switch with intuitive ON/OFF control.

The Decora Smart Wi-Fi Switch can be combined with other Decora Smart Wi-Fi devices to create a Whole Home experience with scheduling, lighting scenes, and app control from anywhere. Go beyond a single device by adding dimmers, fan speed controllers, outlets, and more to control all lights, ceiling fans, electronics and small appliances.

Add the Decora Smart Wi-Fi Voice Dimmer for built-in voice control or the 4-Button Controller to quickly adjust a room full of Wi-Fi enabled dimmers, switches and more with the touch of a button.

Vanishing LEDs, color-change kits and wallplates ensure the switch matches the aesthetic of all other smart and non-smart Decora® devices in the home.

WIRED AND WIRELESS 3-WAY/MULTI-LOCATION CONTROL

Whether new construction or retrofit, a solution is available for 3-way and multi-way applications. Wired Switch Companions offer additional in-wall control locations with matching LEDs and communication when a traditional traveler wire is present. For retrofits, Decora Smart Wi-Fi 2nd Gen devices are compatible with Decora Smart Anywhere Companions, which are easily installed with no wiring required. These wireless 3-way and multi-location devices look like a traditional switch, install quickly, and have a 5 year battery life.

WORKS WITH MY LEVITON

The My Leviton app connects Leviton Decora Smart Wi-Fi devices to the cloud to provide app control, device customization, scheduling, and connection to My Leviton partners including voice assistants. Schedule lights to adjust at specific times or based on sunrise/sunset, adjust custom settings, bulb type, and create lighting scenes to activate multiple devices at once.

Optionally use the auto-shutoff feature to act as a countdown timer in closets, hallways and bathrooms. Utilize the Home or Away modes to enact vacation mode for randomized schedules of selected devices, to provide a lived-in appearance when you are away from home.

NEW! WORKS WITH APPLE HOMEKIT (SIRI)

Decora Smart Wi-Fi 2nd Generation devices can be added to an Apple HomeKit network and controlled with the native Apple Home app on your iOS device, providing compatibility with Siri for voice control.

AMAZON ALEXA VOICE CONTROL

Decora Smart Wi-Fi 2nd Gen devices work with Amazon Alexa. Use your voice to control connected lighting from compatible Alexa built-in devices such as an Amazon Echo, Echo Show, the Alexa app, or even the Decora Smart Voice Dimmer: "Alexa, turn off my living room lights".

GOOGLE ASSISTANT™ VOICE CONTROL

Decora Smart Wi-Fi 2nd Gen devices also work with Hey Google, allowing you to control connected lighting with Google Assistant or from the Google Home app! "Hey Google, turn [My Leviton device name] On".

WORKS WITH SCHLAGE

Use the My Leviton app to connect to your Schlage Encode™ Smart Wi-Fi Deadbolt and trigger lighting scenes based on lock activity. Make certain you never walk into a dark home when you arrive and make sure select lights are turned off when leaving.

WORKS WITH IFTTT (IF THIS THEN THAT)

Use the free IFTTT service to connect your My Leviton devices with other Internet Of Things (IoT) enabled devices & services to create a smarter home automation experience.

FEATURES AND BENEFITS

- Control your lights from anywhere using the free My Leviton app for iOS and Android, no hub required
- Simplify control of your home – schedule lights and connected loads to turn ON/OFF at specific times or based on sunrise/sunset, easily group your smart devices into rooms, and create scenes to activate multiple lights at once
- Works with Hey Google, Amazon Alexa or Apple Siri to use your voice to control connected bulbs and fixtures on or off
- Connects to Wi-Fi; No hub required
- Ease of installation with a product depth of 1.3” and wire leads
- Off Means Off – Ensures low-wattage LED bulbs always turn off
- 6 color choices ensure a perfect match with other Decora devices (see ordering information)
- Pre-set schedules live inside each device, so your schedules always run as expected
- Using My Leviton, control up to 99 devices, 50 rooms, 50 activities, and 50 schedules per residence and up to 20 residences per account
- Single-Pole, 3-way or multi-way control – with the wired DD0SR Switch Companion or a wireless DAWSC Anywhere Switch Companion
